## 1. Textile Factory

- a. The textile factory is located where the Kaposvár-Gyékényes railroad leaves the town, south of the Kaposvár-Nagykanizsa road. It occupies an area of 400 by 800 m., has its own siding and is open only to the east, being surrounded by other building elsewhere. It was built by the Kaposvári Magasepítő Trust.
- b. The factory consists of a six-story main building in the form of an L, with the east-west side the longest. There are two buildings of three and four stories, and some smaller buildings. The larger structures are all of reinforced concrete.
- c. Water is led to the building by a canal from the Kapos River.
- d. The work force is about 3,000; 70 percent of the workers are women. There are three shifts, who operate around the clock.
- e. Military cloth is the main production item, but four or five different fabrics are also produced for civilian use. They are of a standardized type, but of good quality and well dyed. The factory has its own generator, but it also draws electricity from the Pecsujhegy power station.
- f. The wool comes from Poland and Rumania,   The looms 25X1  
were furnished by the USSR.

## 2. Precision Machine Factory

South of Kaposvár on the Kapos River and the road to Szt. Benedek is the precision machine factory, which was completed and began operations in 1952. It occupies an area of 200 by 300 m. and consists of two four-story buildings of 50 by 20 m., several smaller buildings and a power station with a high chimney. There are about 500 workers, 50 percent of them women.
